

# Ninjutsu Dojo Vach

presents a Seminar with

## Dr. Kacem Zoughari

7<sup>th</sup> and 8<sup>th</sup> of July 2018  
in Erlangen, Germany

Basic principles of movement in the nine schools  
&  
Iai Jutsu, Ken Jutsu, Bo Jutsu

Ninjutsu Dojo Vach organizes for you an interesting weekend with Dr. Kacem Zoughari this year in July. It will be Kacem's 15<sup>th</sup> seminar in Erlangen and therefore we will revisit the roots of what we have been working on during the last years. Many people have joined Kacem on the way over the years not having had the chance to be there when Kacem taught the very basics. Others have reached a different understanding and a different view on many aspects that had been taught a long time ago and will certainly appreciate a repetition of the fundamentals.

Consequently this seminar will have a workshop character transporting to each participant individually what and how to practise according to the level he or she is at. Kacem will be open to fundamental questions trying to erase as many of the misunderstandings and false interpretations that have evolved during the last few years. Topics like form and function, practice methodology, good and bad habits as well as practical exercises referring to the central line of attack and defence, angles, proper movement, synchronisation, the difference between

stepping and sliding, the dos and don'ts of efficient movement, etc. We will practise with and without weapons. **If there are any topics, issues or questions you would like to have covered during the seminar you can write an e-mail to [ninjutsu\\_dojovach@yahoo.de](mailto:ninjutsu_dojovach@yahoo.de) and it will be put on the agenda, if it suits the overall approach of the event.** Having said this, please note again that the seminar revolves around movement and technique not around aspects of densho, ryuha, history or politics. Thank you for your understanding.  
The seminar is open to all styles and ranks!
